U.S. Seed Exports At \$60.6 Million In 1971-72

Exports of U.S. seeds in crop year 1971-72 totaled \$60.6 million, 5 percent below the record \$63.8 million in 1970-71.

Vegetable, flower, and pea seed exports increased while all other sales were down. Grass and legume seeds at 91.3 million pounds decreased 10 percent from the record 101.7 million in 1970-71. Seed corn shipments to South America, mainly Brazil, increased sharply but all other regions took smaller amounts. Grain sorghum seed shipments to Mexico were down 30 percent from the large purchase of

19.1 million pounds in 1970-71. Seed rice exports decreased to 6.1 million pounds, valued at \$600,000. Venezuela purchased 62 percent of the total amount.

Europe, by region, is the United States best customer. The European Community accounted for \$16.5 million and the rest of Europe \$9.3 million. North America was next in importance with purchases of \$18.8 million. Exports to Asia amounted to \$7.4 million; South America, \$5.6 million; Oceania, \$1.6 million; and Africa, \$1.4 million.
